

EDC, the world's first precision manufacturer of flexible and rigid endoscopy replacement parts, is a rapidly growing medical device company. This growth has driven our team to seek out additional associates to further our dominance in this arena. Our focus is to manufacture the finest components in the repair of medical devices used in the field of endoscopy.

EDC has a range of opportunities at our facilities near intersection of 70 and 270. We are looking for individuals that are willing to learn new tasks and grow with our company. **No previous experience necessary** "WE WILL TRAIN YOU." Basic duties would be assembling, machine operation, brazing and inspection. Please feel free to visit our website at www.edcparts.com to view some of the products we are manufacturing.

We offer an excellent benefits package which includes Healthcare/Vision/Dental insurance, multiple weeks of **Paid Time Off** in the first year, and 401k upon completion of 1 year of service.

We are currently seeking individuals to increase our capacity in the following areas.

Mechanical Assemblers – Assemble kitted parts into small assemblies using glue, solder, braze, and small hand tools and laser welders.

Assembly Technicians – Create complicated assemblies from other assemblies and parts using glue, solder, braze and other materials and quality check / test your final project.

Braiding Operators – Run a mechanical braider to weave wire into medical grade mesh.

Extrusion Operators – Run and maintain an extruder to coat parts, while monitoring and testing the quality of the part.

Cutting/Stamping Technicians – Run a laser cutter and small stamping presses to create medical components.

Screen Printing Operators – Run and troubleshoot a screen printer to label and mark medical components.

Spray Coating Operators – Run and troubleshoot a spray coating booth to paint and coat medical components.

Many of our team members rotate around in different roles to maximize development opportunities and reduce boredom.

If you are looking to join a highly integrated team at a rapidly growing company in the medical device field, and want a variety of tasks to master, please Emails should be sent to **Clint Diedrich** at cdiedrich@edcparts.com
