**\*\* We have found that it is easiest to upload the physical as a scan. It also provides the clearest readable copy. If you do not have access to an actual scanner, there are several free apps (in both Apple and Android) that can be used with your phone to create a better copy of the physical. Examples are: CamScanner for Android and Scanbot for Apple phones. NOTE: these are not mandatory - they are optional and just suggestions. There are other apps that would work just as well, and you still have the option of simply using your phone's camera.**
