**DESIGN ARTS, THREE DIMENSIONAL DESIGN and DRAWING** serve as introductory prerequisites for other studio art courses. These contain the study of the elements of art and the principles of design.

The College Board says, "Preparation in the arts will be valuable to college entrants whatever their intended field of study. The actual practice of the arts can engage the imagination, foster flexible ways of thinking, develop disciplined effort, and build self-confidence. Appreciation of the arts is integral to the understanding of other cultures sought in the study of history, foreign language, and social sciences. Preparation in the arts will also enable college students to engage in and profit from advanced study, performance, and studio work in the arts. For many others, it will permanently enhance the quality of their lives, whether they continue artistic activity as an avocation or appreciation of the arts as observers and members of audiences."
