

## First Grade Party

- Craft 1 - Blow Kisses Craft- we will have a photo of each child pretending to blow kisses. A volunteer will go in before the party and take the photos or we will give the teacher the option to take photos for us and send them to us. The day of the party we will give each child their photo. We will provide different size hearts and the kids will arrange them on their art project so it looks like they are blowing kisses. This will be a gift for their parents/guardians. An example photo is attached.

- Craft 2 - We will provide the children with red and pink pipe cleaners. They will simply form them into heart shaped glasses. This is very simple but we think the kids will like it. Example photo attached.

- Game 1 - We will bring pre-made safe arrows and valentine boxes to the party. The kids will throw the arrows into the boxes and see how many they can get in the box in the allotted time.

- Game 2 - Each child will be provided individually packaged straw and qtips. The children will put the qtip in the edge of the straw and blow it across the table to the finish line.

- Craft 3- We will decorate valentine holders made out of paper plates. Example photo attached.

- Activity 1 - We will end the party with a funny valentine mad-lib that the kids helped us create.

Thanks so much!

Carrie Chapman
