

Game #1: Trivia Game

We will be playing 6 rounds of trivia including topics such as geography, sports and entertainment, the Fall season, etc. There are 5 questions per round. The students will be divided into teams of 4 and can work together to get the answers to the trivia question. The winners of that round will be allowed to get a prize from the "Poke a Pumpkin" prize board. The board will be decorated with cups (in the shape of a pumpkin) covered in tissue paper. The prizes will be inside the cup. The winning team will be able to break the tissue paper and retrieve a prize. There will be 4 prizes per cup and we will have enough if there are multiple winners.

Game #2: Bone Bridges

Students will work in small groups to build a bridge using pipe cleaners, Q-tips, and popsicle sticks. The bridges will be tested for weight and will have to meet a height requirement.
